2.0 Required Capabilities

As detailed in the attached draft PWS, required support capabilities include the following highlights:

2.1 The Contractor shall schedule and perform Level-I Preventive Maintenance (PM) on systems called out in Attachment 1 "List of Equipment to be Maintained" to keep systems operational and minimize the occurrence of NGIC incurring Level-II Service Order or High Dollar Value (HDV) Maintenance and Projects Level III High Dollar Value type maintenance actions on the aforementioned systems. Schedule and perform all janitorial tasks for NGIC buildings inclusive of providing all supplies and cleaning equipment necessary for fulfilling janitorial requirements set forth in the PWS. Respond to service order requests whether initiated by Government employees or RSFMS contractor employees and resolve service orders within constraints set forth in the PWS.

Act upon event support, general maintenance, furniture and workstation component installation, and removal.

2.2 Schedule and perform Level-II (Service Order) and Level III High Dollar Value type maintenance when Contracting Officer Representative provides written approval to proceed on such type maintenance. Maintain RSFMS service records to provide Government employees access to reliable data for workload estimates and budget preparations for RSFMS and janitorial. Comply with all security and safety requirements set forth in the PWS with an emphasis on an agile employee training program and monitor security and safety compliance as part of the contractor's quality control plan to assure contractor meets or exceeds the performance standards set forth in the PWS for RSFMS and janitorial.

2.3 This effort would require a contractor to provide key personnel (i.e., Project Manager/Site Lead, Facilities Maintenance Records Service, General Maintenance Worker, Janitors, and Recycle Specialist) as referred to in the PWS

2.4 The Contractor shall physically inventory the property and facilities described in Attachment 1 "List of Equipment to be Maintained" and confirm the categories and quantities of equipment items to be maintained. The completed inventory may become a basis for readjustment, and the Contractor shall conduct a 100% physical inventory at least once annually or as directed by the NGIC Property Book Officer. The completed inventory may become a basis for readjustment.

2.5 Place of Performance: The work to be performed under this contract will be performed at Rivanna Station, Charlottesville, VA, and any/all NGIC-occupied facilities within 15-miles radius of Rivanna Station.

2.6 Type of Contract: The government will award a Firm-Fixed Price (FFP) type contract.

2.7 Security Requirements: All personnel performing on site would require TOP SECRET/ Sensitive Compartmented Information (SCI) clearances to perform in the SCIF. Contractor personnel performing duties outside the SCIF must pass a National Criminal Investigation Check (NCIC).

2.8 Physical Security: The contractor shall be responsible for safeguarding all government equipment, information and property provided for contractor use.
