Section 13: Security Guidance
Adhere to:
FAR 52.204-2 Security Requirements (MAR 2021)
This clause applies to the extent that this contract involves access to all non-intelligence information classified "Confidential," "Secret," or "Top Secret."
Facility Clearance Level (FCL): The Contractor shall possess and maintain a FCL granted by the Defense Counterintelligence and Security Agency (DCSA). Should an FCL be invalidated for any reason, all work involving Classified National Security Information (CNSI) must stop.
The creation and maintenance of all DD 254s will be accomplished within the National Industrial Security System (NISS) Increment II System (NI2) (https://www.dcsa.mil/Systems-Applications/NI2-National-Industrial-Security-System-Increment-II/) and U.S. Department of Commerce (Department) security system of record and Security Manager throughout the life of the contract.
The Contractor shall be registered within NI2 at the time of award. It is incumbent upon the Contractor to ensure that the necessary security paperwork is submitted in sufficient time to enable each individual to be cleared prior to beginning work on this contract. If the NI2 is superseded by another System of Record, the same requirements apply. The Contracting Officer will maintain DD 254 in the Official Contract Records.

The Contractor is not authorized to subcontract on this effort without an approved subcontracting plan and written Government Contracting Activity (GCA)/Contracting Officer (CO) authorization for all non-intelligence information classified "Top Secret" per https://www.ecfr.gov/current/title-32/part-117#p-117.11(d)(2)(iii)(A)
The prime Contractor is required to issue individual DD 254s for each subcontract awarded, even when those subcontractors are listed on the original or subsequent DD 254 through NI2, a member of the Department Office of Security Information Security Program (ISP) shall be listed as Reviewer within NI2. Contractor will coordinate with COR for proper delineation or Reviewer.

Contractor personnel performing or assigned under this contract must be U.S. persons. Security Classification Guide requests should be presented to the Government Sponsor, if required, subsequent to contract award. All CNSI received or generated under this contract is the property of the U. S. Government. The U. S. Government shall provide disposition instructions. No release of CNSI or Controlled Unclassified Information (CUI) under this contract is authorized. All requirements for control and accounting of original documentation and copies apply. All applicable provisions of the National Industrial Security Program Operating Manual (NISPOM) and its supplements and 32 CFR, part 117 apply. Any CNSI shall be transmitted in accordance with Department Manual of Security Policies and Procedures or successor policy.

The Contractor shall comply with (1) Security Agreement (DD Form 441/DD Form 441-1), (2) 32 CFR, Part 117.Provisions of the Privacy Act apply to all records and reports maintained by the contractors and (3) Department Manual Security Policies and Procedures.

All programs and materials developed at government expense during the performance period of this contract are the property of the US Government.

Prior to granting an employee access to CNSI and/or materials, the contractor shall brief employees regarding their obligation to comply with 32 CFR, Part 117 NISPOM, to include any changes and/or amendments. The Contractor s employees shall be debriefed when access to the material is no longer needed or is terminated. A list of all employees who have had access to CNSI during the period of this contract shall be maintained by the contractor company and be available for Defense Counterintelligence and Security Agency (DCSA) inspection.

Contactor employees shall abide by US Government Security Regulations and Security Policies when working on-site at US Government facilities/installations and shall annually attend Government mandatory training, and all other training as directed by the US Government.

Cleared contractors shall complete Department initial and annual formal training sessions identifying the requirements associated with the proper safeguarding of CNSI and Insider Risk Training.

Department CNSI and Insider Risk training courses are accessed through Department web-based intranet and shall be completed within thirty (30) days of onboarding:
o Annual CNSI Security Clearance Holder Training includes Derivative Classification, Marking and Annual CNSI Security Clearance Holder Training
o https://connection.commerce.gov/sites/default/files/nsitraining/story.html
o Insider Risk Training (https://doc.csod.com/ui/lms-learning-details/app/course/5511a403-6862-4f2a-a83e-515c3f4ca190)

If unable to access Department training, training requirement for onboarding may be accomplished through the completion of all of the listed trainings from the Center for Development of Security Excellence (https://cdse.usalearning.gov/):
o DoD Initial Orientation and Awareness Training (IF140.06);
o Derivative Classification (IF103.16);

Annual CNSI Security Clearance Holder Training and Insider Risk Training certificates shall accompany the initial and annual Visit Authorization Request (VAR) prior to any Contractor or Subcontractor being granted access to CNSI. Subsequently, this training shall be completed annually. All annual training completion certificates shall be provided to the Insider Risk Management Program Office (IRMPO): insiderrisk@doc.gov and the Industrial Security Program (ISP): OSY_IndustrialSecurity@doc.gov through the COR.

All training records shall be maintained by the Facility Security Officer (FSO) and made available to COR upon request.

Contractor personnel shall utilize US Government or official company e-mail for transmitting official US Government business. Official US Government business shall NOT be transmitted via personal, private, and/or commercial e-mail accounts.

Contractor is prohibited from using reference to this contract, classification, clearances, accesses (collateral and/or SCI), even by unclassified acronyms, in advertisements, websites, capabilities fliers, promotional efforts, or recruitment of employees.

The contracting company's FSO shall ensure all contractor personnel requiring access to CNSI obtain and maintain a Personnel Clearance (PCL) at least to the clearance level required for their assigned position designation (https://pdt.nbis.mil) while performing on the contract; be within investigation scope at the appropriate national security access level in accordance with the applicable acquisition Requirements Document (SOW, PWS, SOO, etc.), and be enrolled within Continuous Evaluation (CE) at the time of contract award and throughout the life of the contract to include all potential option years identified in the Requirements Document. Additionally, the FSO shall provide all contractor personnel with an Initial CNSI briefing prior to the start of work and access to CNSI. All contractor personnel are required to sign an SF-312 Classified Information Nondisclosure Agreement prior to accessing CNSI.
Contractor personnel performing on this contract shall receive security awareness training initially and at least annually, in accordance with 32 CFR Part 117 National Industrial Security Program Operating Manual (NISPOM) and Department requirements.

Item 12: PUBLIC RELEASE OF INFORMATION GUIDANCE
Disclosure to the Public. Contractors shall not disclose CNSI, CUI or unclassified information pertaining to a classified contract to the public without prior review and clearance as specified in the Contract Security Classification Specification for the contract or as otherwise specified by the Department.
All requests involving classified contracts shall be made through the Department, Office of Security, RM 1067, 1401 Constitution Ave, NW, Washington, DC 20230 Attn: Industrial Security Program, or OSY_IndustrialSecurity@doc.gov, cc: COR/Task Order Manager.

DISCONTINUED ACCESS (RESIGNATION/TERMINATION/DEATH)
The Departmental Office or Primary Operating Unit Field Servicing Security Office (https://www.commerce.gov/osy/field-offices/field-offices-overview) shall be notified of all resignations/terminations/deaths within two (2) business days of occurrence. The Contractor shall return to the COR all Department issued identification cards, building passes and equipment upon no longer providing contract support to the Departmental Office or Primary Operating Unit. The contract FSO shall assist in the facilitation of the timely return and notification of contractors who are no longer providing contract support to the Departmental Office or Primary Operating Unit as soon as known. If an identification card or building pass is not available to be returned, an incident report shall be submitted to the COR, referencing the pass or card number, name of individual to whom issued and the last known location and disposition of the ID Card or building pass.

CONTINUED ELIGIBILITY:

The Department reserves the right to deny and/or restrict entrance to government facilities, prohibit employees from assigned work under the contract, deny and/or restrict handling of CNSI of any Contractor employee who the Department or DCSA determines to present a risk of compromising CNSI and/or sensitive government information. The Department may require drug screening at any time for probable cause and/or when the Contractor independently identifies circumstances where probable cause exists.
A report shall be provided to the ISP through the COR annually including a complete list of active contractors and/or consultants performing work on the contract. To include annual VARs (template: https://connection.commerce.gov/policy/20240313/visitor-access-request-form-template), clearance/access levels, training completion dates and certificates of training. Failure to provide an annual VAR or training certificates for a contractor will result in the suspension and possible termination of government facility and CNSI access.

DISCLOSURE OF INFORMATION
(a) The Contractor shall not release to anyone outside the Contractor's organization any unclassified information, regardless of medium (e.g., film, tape, document), pertaining to any part of this contract or any program related to this contract, unless
(1) The Contract Officer has given prior written approval;
(2) The information is otherwise in the public domain before the date of release; or
(3) The information results from or arises during the performance of a project that involves no covered information and has been scoped and negotiated by the contracting activity with the contractor and research performer and determined in writing by the Contract Officer to be fundamental research (which by definition cannot involve any covered information), in accordance with National Security Decision Directive 189, National Policy on the Transfer of Scientific, Technical and Engineering Information, in effect on the date of contract award.
(b) Requests for approval under paragraph (a)(1) shall identify the specific information to be released, the medium to be used, and the purpose for the release. The Contractor shall submit its request to the Contract Officer at least 10 business days before the proposed date for release.
(c) The Contractor agrees to include a similar requirement, including this paragraph (c), in each subcontract under this contract. Subcontractors shall submit requests for authorization to release through the prime contractor to the Contract Officer.

CONTROLS AND CNSI MANAGEMENT
This contract and its related attachments may impose strict security requirements for need-to-know access, special handling procedures, physical security measures, and administrative controls beyond those prescribed for collateral Department information. The provisions delineated in 32 CFR Part 117 NISPOM, Department Policy, applicable Intelligence Community Directives, and applicable Security Classification Guides are strictly enforced.
The contractor is responsible for returning all CNSI (documents and other media) to the sponsoring Departmental Office or Primary Operating Unit. Furthermore, Department contractors must end all work and performance associated with this effort based on the classification guidance provided through existing classified sources. Questions relating to handling, marking, and safeguarding CNSI may be addressed to the COR and ISP. Retention of CNSI shall be in compliance with 32 CFR Part 117 NISPOM and Department Policy.

CNSI received and/or generated under this contract is the property of the U.S. Government regardless of proprietary claims. Upon completion or termination of this contract, the U S. Government will be contacted for destruction or disposition instructions. Derivative classifications must be derived from existing classification source documents. The contractor may not act as an Original Classification Authority. The contractor is not authorized to release U.S. Government CNSI to any activity or person, including sub-contractors without the Contract Officer 's written approval. Only with the expressed authorization of the Contract Officer will the contractor reproduce any CNSI. All requirements for the control and accounting for original documentation and copies apply and must be in accordance with 32 CFR Part 117, NISPOM. Destruction and retention of classified information will be protected in accordance with 32 CFR Part 117 NISPOM. The Contractor is responsible for handling and marking Controlled Unclassified Information in accordance with the Department CUI Guidelines. Contractors with questions on handling Department CUI may contact the COR or CUI Manager at cui@doc.gov

Item 10a COMSEC: Contractor personnel require access to Classified Communications Security (COMSEC) in the performance of this contract. COMSEC material is not releasable to contractor personnel who have not received a FINAL PCL at the appropriate security level and must be in the performance of this contract. Such information is NOT releasable to personnel holding interim clearances. All contractor personnel who require access to classified COMSEC information in the performance of their duties will be briefed by the FSO before access is granted. All contractor personnel will adhere to National Security Agency (NSA) Central Security Service (CSS) NSA/CSS Manual 3-16, "Control of Communications Security Material," and the Committee on National Security Systems Instruction (CNSSI) 4001, "Controlled Cryptographic Items," and COMSEC rules and regulations as mandated by Department policy and procedures. Contractor personnel will receive a COMSEC briefing before access to COMSEC information is granted and will follow Department requirements. Contractor personnel requiring continuous access to TOP SECRET and SECRET key and authenticators that are designated CRYPTO, and to classified cryptographic media that embody, describe, or implement classified cryptographic logic to include, but not be limited to, full maintenance manuals, cryptographic descriptions, drawings of cryptographic logic, specifications describing a cryptographic logic, and cryptographic computer software, will receive a CRYPTO briefing before access to cryptographic information is granted and will follow Department requirements. The Contractor is not authorized to subcontract access to COMSEC on this effort without prior approval from the GCA of the COMSEC (when applicable) and the CO per https://www.ecfr.gov/current/title-32/part-117#p-117.11(d)(2)(iii)(A)

Ref 10j: Controlled Unclassified Information (CUI) / Receive, Store, or Generate CUI: Contractor will abide by 15 CFR Part 4 Public Information, Freedom of Information Act and Privacy Act Regulations (https://www.govinfo.gov/content/pkg/FR-2018-08-10/pdf/2018-17171.pdf), the Department Controlled Unclassified Information Guidelines, and Department Manual of Security Policies and Procedures. In accordance with the Commerce Acquisition Manual 1337.70 Personnel Security Requirements (https://www.commerce.gov/oam/policy/acquisition-policy/commerce-acquisition-manual-cam), Contractors are required to ensure all personnel receive and complete Initial and Annual Refresher CUI education and training and maintain documentation of this training for audit purposes. Initial and Annual Refresher CUI security education, training and awareness on the required topics identified in Section 2002:30 of Title 32 CFR, including protection and management of CUI, to Department contractors through the Center for Development of Security Excellence (CDSE).
CUI Courses and Resources Created for Industry:

The Center for Development of Security Excellence (CDSE) has developed an eLearning course titled DoD Controlled Unclassified Information (CUI) Training For Contractors (IF141.06.FY21.CTR). The course fulfills CUI training requirements for industry.

Additionally, CDSE has a CUI Toolkit available at https://www.cdse.edu/toolkits/cui/current.html. The Toolkit includes training, policy documents, resources, and an FAQ video.
