(End of Provision)

RFO 52.212-2 Evaluation- Commercial Products and Commercial Services, applies to this acquisition.

The Government intends to award a contract resulting from this solicitation to the responsible offeror whose solicitation response conforming to the solicitation will be most advantageous to the Government, and judged to represent the best value to the Government based on the following factors:

A. Evaluation Factors (in order of importance):

BASIS FORCONTRACT AWARD: This is a competitive, best value continuum using the Lowest Price Technically Acceptable (LPTA) source selection process.

Technical elements will be evaluated as acceptable or unacceptable for each solicitation response.

Qualifications will be clear, and objectives will be outlined in the RFQ. Past Performance will be evaluated as acceptable or unacceptable for each solicitation response. The evaluation process shall proceed as indicated below.

Evaluation Approach:

Step 1: All contractors will be evaluated for responsiveness. Responsiveness is determined by verifying compliance with RFO 52.212-1 and its addendum.

Step 2: All responsive contractors will be ordered, by price, from the lowest to the highest Total Evaluated Price (TEP). A contractor's TEP is depicted in Attachment 4, Pricing Schedule Worksheet, on the Price Schedule Tab. The TEP is comprised of the total contract value (base and all options) plus the 6-monthoption available at RFO 52.217-8, Option to Extend Services. Pricing for RFO 52.217-8 is determined by taking the "amount" of the most recent option year exercised and dividing it by two (2).

Step 3: Technical evaluations will start with the lowest TEP offer and continue until two (2) solicitation responses are determined to be technically acceptable, or until all solicitation responses have been evaluated.

Step 4. The solicitation responses determined to be technically acceptable will then be evaluated for past performance until two (2) technically acceptable solicitation responses have been determined to have acceptable past performance. Steps three (3) and four (4) will continue until two (2) solicitation responses have been determined acceptable in both technical and past performance, or until all solicitation responses have been evaluated.

Step 5. The Government will make a determination of price fair and reasonable.

Evaluation Factors for Award:

Price Foreword: The government will evaluate offers for award purposes based on their TEP. The government may determine that a solicitation response is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the government to exercise the option(s).

1. Price:

a.) Initially, solicitation responses shall be ordered from lowest to highest TEP, as previously defined.

b.) For evaluation purposes, RFO 52.217-5, Evaluation of Options will be evaluated and applied to this evaluation. To evaluate the impact of clause RFO 52.217-8, the pricing proposed for option four (4) will be utilized to calculate a six (6) month extension price. Evaluation of options will not obligate the government to exercise the option(s).

c.) The TEP will be evaluated to determine whether it is reasonable. A reasonable price/cost represents a price/cost that provides best value to the government, considering market prices, the technical and functional capabilities of the contractor, and risk. Additionally, the government reserves the right to, but is not required to, conduct a price realism analysis on offers that appear to be exceptionally low and not supported by the contractor's technical approach. In instances where a contractor's proposed price(s) appears exceptionally low, contractors may be requested to address this disparity by providing evidence of their capability and/or performance at similar price(s). The burden of proof as to price credibility rests with the contractor. An exceptionally or unrealistically low offer that's left unexplained may pose an unacceptable risk to the government and may be a reason to reject a contractor's solicitation response.

d.) The government anticipates adequate price competition and intends to award a contract without exchanges with respective contractors. The Government, however, reserves the right to conduct exchanges if deemed in its best interest.

2.TECHNICAL:

a.) The technical volume will be evaluated as either acceptable or unacceptable.

i. Acceptable is defined as: "Required documents clearly meet the minimum requirements of the solicitation".

ii. Unacceptable is defined as: "Required documents do not clearly meet the minimum requirements of the solicitation".

b.) The technical volume is comprised as listed below. An overall technical volume rating will be assigned; failure to be assigned an acceptable rating in any technical subfactor will render the entire technical volume unacceptable and, therefore, ineligible for award.

Only those solicitation responses determined to be technically acceptable, either initially or as a result of interchanges, will be considered for award. However, the contractor is reminded that the government reserves the right to award this effort based on the initial solicitation response, as received, without interchanges, and may conduct interchanges with all, some, or none of the contractors.

Instructions to Offerors	Evaluation Criteria
1: Technical Approach - Shall clearly explain how then Offeror intends to ensure successful contract performance IAW the PWS. Solicitation responses shall provide convincing rationale addressing how the technical portion of the proposal meets solicitation requirements.	1. Effectively and sufficiently details and summarizes the offeror's technical approach in ensuring performance per the PWS and solicitation requirements. The standard is met when the conditions accurately describe performance in accordance with the PWS.

3. PAST PERFORMANCE:

a.) The Government will seek recent, relevant past performance and will be evaluated on an Acceptable/Unacceptable scale as defined below.

DEFINITION	RATING
Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort, or the Offeror's performance record is unknown	Acceptable

Based on the Offeror's performance record, the Government has no reasonable expectation that the Offeror will be able to successfully perform the required effort.	Unacceptable

(a) An assessment of the past performance information will be made to determine if itis recent. Recent contracts are contracts which have been performed within the last five (5) years from the date of the issuance of this solicitation.

(b) Relevant performance includes performance efforts involving Fire Suppression Services that involved similar scope/complexity, magnitude of effort, contract type, and contract environment this solicitation required.

(c) In the case of a contractor without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the contractor may not be evaluated favorably or unfavorably on past performance. Therefore, the Offeror shall be determined to have unknown past performance. Unknown or neutral past performance, in the context of acceptability/ unacceptability, a neutral rating shall be considered acceptable.

252.232-7007 Limitation of Government's Obligation. (Apr 2014)

LIMITATION OF GOVERNMENT'S OBLIGATION (APR 2014)

(a) Contract line item(s) ____[Contracting Officer insert after negotiations] is/are incrementally funded. For this/these item(s), the sum of $ ____[Contracting Officer insert after negotiations] of the total price is presently available for payment and allotted to this contract. An allotment schedule is set forth in paragraph (j) of this clause.

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government's convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled "Termination for Convenience of the Government." As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those item(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the Contractor's best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for a subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause or otherwise agreed to by the parties. If after such notification additional funds are not allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraphs (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "Disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "Default." The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) and (e) of this clause.

(h) Nothing in this clause affects the right of the Government to terminate this contract pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It [ ] is [X] is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 [ ] a full exemption, or [ ] partial or no exemption [Offeror must select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
