(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either-

Order Limitations (Oct 1995)

(a) *Minimum order*. When the Government requires supplies or services covered by this contract in an amount of less than $2,500.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order*. The Contractor is not obligated to honor-

(2) Any order for a combination of items in excess of $349,999.99 ; or

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 5 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

52.216-21	Requirements. (Deviation 2026-O0038)	2026-02

Requirements (Feb 2026) (Deviation 2026-O0038)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere

in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the United States Army Garrison, Hawaii, Directorate of Public Works (USAG-HI DPW) for preventive maintenance and repair services at Kahuku Training Area (KTA), Island of Oahu, Hawaii.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the ordering period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's ordering period; *provided* , that the Contractor shall not be required to make any deliveries under this contract after December 31, 2031 (excluding any 52.217-8 extension).

The Contracting Officer may exercise the option by written notice to the Contractor within 45 days.

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 45 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 60 months (excluding any 52.217-8 extension).

Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Certification (Feb 2026) (Deviation 2026-O0038)

(a) The offeror must check the following certification:

Certification

The offeror [ ] does [ ] does not certify that-

(1) The items of equipment to be serviced under this contract are used regularly for other than Government purposes, and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontractor) in substantial quantities to the general public in the course of normal business operations;

(2) The services will be furnished at prices which are, or are based on, established catalog or market prices for the maintenance, calibration, or repair of equipment.

(i) An "established catalog price" is a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or the offeror, is either published or otherwise available for inspection by customers, and states prices at which sales currently, or were last, made to a significant number of buyers constituting the general public.

(ii) An "established market price" is a current price, established in the usual course of trade

between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or offeror; and

(3) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract are the same as that used for these employees and equivalent employees servicing the same equipment of commercial customers.

(b) Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services. If the offeror certifies to the conditions in paragraph (a) of this provision, and the Contracting Officer determines in accordance with FAR 22.1002-1(e)(3) that the Service Contract Labor Standards statute-

(1) Will not apply to this offeror, then the Service Contract Labor Standards clause in this solicitation will not be included in any resultant contract to this offeror; or

(2) Will apply to this offeror, then the clause at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Requirements, in this solicitation will not be included in any resultant contract awarded to this offeror, and the offeror may be provided an opportunity to submit a new offer on that basis.

(c) If the offeror does not certify to the conditions in paragraph (a) of this provision-

(1) The clause in this solicitation at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Requirements, will not be included in any resultant contract awarded to this offeror; and

(2) The offeror must notify the Contracting Officer as soon as possible, if the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation.

(d) The Contracting Officer may not make an award to the offeror, if the offeror fails to execute the certification in paragraph (a) of this provision or to contact the Contracting Officer as required in paragraph (c) of this provision.

The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It [ ] is [ ] is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 [ ] a full exemption, or [ ] partial or no exemption [Offeror must select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to

Additional Instructions and Information:

1. Quote Submission Instructions.

a. This solicitation is a Request for Quote (RFQ), solicitation number W912CN27QA008. This solicitation will be posted on the System for Award Management (SAM) website at https://sam.gov/. Once posted, it is the responsibility of the quoter to monitor the website for any issued amendments until the closing date. Quotes shall be submitted electronically via email to the Contract Specialist identified below. Faxed quotes will not be accepted.

Contract Specialist Name: Travis Tonini

E-mail Address: travis.c.tonini.civ@army.mil

Contracting Officer: Keely K. Pool

E-mail Address: keely.k.pool.civ@army.mil

b. Quotes must be received by the contracting office on or before the date and time stated in Block 8 of the SF 1449. Local time is Hawaii Standard Time (HST). It is the responsibility of the quoter to ensure quotes are received and acknowledged by the Contract Specialist on or before the closing date.

c. Minimum Quote Acceptance Period. The quoter's submission confirms that its proposed prices are firm and will be held for 120 calendar days per FAR 52.212-1(c).

d. The Government may reject any or all quotes if such action is in the public interest and reserves the right to cancel this RFQ and make no award. By submitting a quote, the quoter acknowledges that the Government shall not be liable for any costs incurred in response to this RFQ.

2. Solicitation Questions.

A summary of questions received, and Government responses, will be provided via amendment posted on SAM.gov. Questions are due by 10:00 AM Hawaii Standard Time on Thursday, 12 November 2026. Questions must be submitted in writing to both the Contract Specialist and Contracting Officer below and may be addressed at the discretion of the Government. Late questions may not receive a response.

Travis Tonini (Contract Specialist): travis.c.tonini.civ@army.mil

Keely K. Pool (Contracting Officer): keely.k.pool.civ@army.mil

3. Site Visit (Restricted Area).

Kahuku Training Area is a restricted U.S. Army training area. A site visit will be held on Tuesday, 10 November 2026. Attendance is strongly encouraged but is not mandatory. Due to the restricted nature of the area, all attendees must be eligible for installation access and must submit visit-request information not later than Friday, 6 November 2026 at 12:00 PM HST. Visit requests shall be submitted by email to travis.c.tonini.civ@army.mil for further instructions. Offerors that do not attend shall rely on the PWS, Technical Exhibits, and any amendments. Failure to inspect the site will not be a basis for a later claim of unknown site conditions.

4. Quoters shall prepare their quotations in accordance with FAR 52.212-1 and this addendum. A complete quote must be received to be considered for award. Quotes that fail to address all requirements or follow all instructions may be considered ineligible for award. A complete quote includes a response to each of the following:

a. RFQ SF 1449. Complete and sign the SF 1449 in its entirety, paying particular attention to Blocks 12, 17a, and 30a-c, which must be completed and signed by an authorized representative. All amendments must be acknowledged. Quotes that do not include a properly completed and signed SF 1449, including acknowledgment of all amendments, may be rejected or considered ineligible for award.

b. RFQ SF 1449 -- Continuation Sheet / Section B. Complete by providing the unit price and extended amount for all priced contract line-item numbers (CLINs), including all option CLINs and HVAC Sub-CLINs (0003AA, 0003AB, 0003AC and option-year twins). Failure to price all required CLINs may render the quotation incomplete and ineligible for award.

Do not price the Repair Services CLIN (CLIN 0006 and option-year CLINs 1006, 2006, 3006 and 4006). Repairs will be priced after award on Contracting Officer-issued firm-fixed-price task orders using Technical Exhibit 2. The Government-estimated amount shown for that CLIN is for planning only and is not part of the total evaluated price.

c. Offeror Price Quote Form (Excel). Complete the attached Excel pricing form. Ensure all quoted amounts do not exceed two (2) decimal places. The completed form must be submitted with the quotation. No alternate pricing formats will be accepted. Do not enter a price for the Repair Services CLIN.

d. Past performance is not an evaluation factor, and quoters should not submit past performance information. Before award, the Contracting Officer will make a responsibility determination on the apparent successful quoter, which may include review of the Contractor Performance Assessment Reporting System (CPARS), SAM, and other available information.

e. Technical Capability Submission. The quoter shall submit documentation demonstrating compliance with the minimum technical requirements of the solicitation and Performance Work Statement (PWS). The submission shall be a stand-alone document not exceeding 10 pages, excluding resumes, certificates, licenses, permits, teaming agreements, and letters of intent. If an individual is assigned to multiple roles (e.g., Project Manager and technician), documentation must

validate their qualifications for each role. The technical capability submission shall address both subfactors below. A quote must be rated Acceptable under both subfactors to be eligible for award. Information beyond the minimum requirements may be considered in a comparative evaluation as described in Section M. Copies of required licenses and certifications shall be submitted with the quote so the Government can verify them before award.

Subfactor A -- Qualifications and Licenses:

Project Manager:

1) Provide the name and contact information of the designated Project Manager (and alternate, if applicable).

2) Provide a statement or documentation confirming the PM is authorized to work in the U.S., is proficient in the English language (able to read, write, speak, and understand English), and can obtain and maintain installation access (Army Installation Access Control / AIE) at Kahuku Training Area prior to the contract start date.

3) Provide objective evidence (e.g., resume, work history) demonstrating the PM holds a bachelor's degree or has at least five (5) years of experience managing contracts of similar scope and complexity (preventive maintenance and repair of HVAC, fire alarm / mass notification, emergency lighting, and/or lightning protection systems).

Licenses and certifications (submit copies with the quote -- before award):

4) Hawaii contractor licenses. Provide a current, valid copy of each of the following State of Hawaii contractor licenses covering the work: C-13 (Electrical), C-15 (Electronic Systems), and C-52 (Ventilating and Air Conditioning). C-60 (Refrigeration) may be submitted in addition to, or in lieu of, C-52 for refrigeration-bearing HVAC work. Licenses must be active at the time of quote submission so the Government can verify them before award.

A required Hawaii C-license may be held by any of the following: (i) the quoter (the company); (ii) a Responsible Managing Employee (RME) or other qualifying employee of the quoter; or (iii) a proposed first-tier subcontractor. If a subcontractor is used to satisfy a license, include a signed Teaming Agreement or Letter of Intent with the quote. If an employee of the quoter holds the license (RME / qualifying person), identify that employee by name and attach the license copy. See PWS Section 2.1.11.1.1 and 2.1.11.1.2.

5) Technician credentials. Provide copies of the credentials held by the people who will perform the work, as applicable: fire alarm / mass notification -- NICET Level II or III and NFPA 72 training; lightning protection -- Journey Worker Electrician (EJ) or Supervising Electrician (ES), NFPA 780 training, and LPI-IT and LPI-IS (or equivalent); HVAC -- Federal EPA Section 608 Universal (or Types I, II, and III) in accordance with 40 CFR Part 82. These may be held by employees of the quoter or of a first-tier subcontractor identified in the quote. Do not submit a staffing plan in lieu of the actual copies.

6) Provide a statement confirming all contractor employees and subcontractor personnel who will work on this contract are legal U.S. residents and can communicate clearly in English.

Subfactor B -- Operational Readiness:

Equipment and Site Capability:

Provide a brief narrative demonstrating the operational capacity to begin performance on or about 1 January 2027, including a description of service vehicles, tools, and diagnostic equipment sufficient to independently inspect, test, maintain, and repair HVAC (PTAC, central, and ductless), fire alarm and mass notification, emergency lighting and exit signs, and lightning protection systems at Kahuku Training Area. The narrative shall address performance at a remote, restricted training area (Range Control access; no potable water on site; contractor-furnished tools, vehicles, and water). The narrative should identify the vehicles, tools and diagnostic equipment for each system type (HVAC, fire alarm/mass notification, emergency lighting and exit signs, lightning protection), how the quoter will meet the PWS response times at KTA, and how it will handle Range Control access and the lack of water on site.

Responsible Use of Artificial Intelligence. The Government reserves the right to employ Artificial Intelligence (AI) tools and platforms to assist in support tasks such as summarizing voluminous content, highlighting compliance with basic solicitation requirements, and organizing proposal data for evaluator review. AI will be used only as a tool to support decision-makers. AI will not be used to make evaluative judgments or selections, or to replace the independent assessment of source selection personnel. Source selection personnel remain exclusively responsible for the accuracy, integrity, and final approval of all acquisition actions, including final evaluations, adjectival ratings, best-value determinations, and selection decisions. Any AI platform or tool used by the Government will comply with Department of War cybersecurity frameworks at Impact Level 5 (IL5) or higher to safeguard contractor bid, proposal, and proprietary data, and will not use contractor data to train external or commercial AI models.

Note: To be eligible for award, quoters must maintain an active registration in the System for Award Management (SAM) with current, fully completed representations and certifications both at the time of quote submission and at the time of award. This acquisition is a 100 percent Total Small Business Set-Aside under NAICS 561210.

Section M - Evaluation Factors for Award

Addendum to FAR 52.212-2 -- Evaluation -- Commercial Products and Commercial Services

Basis of Award. The Government intends to award a single firm-fixed-price requirements contract (base period plus four (4) 12-month option periods, with FAR 52.217-8 evaluated) resulting from this solicitation to the responsible quoter whose quotation conforms to the solicitation requirements and represents the best value to the Government, price and other factors considered. The Government will use a Price and Other Factors basis for award, and may conduct a comparative evaluation of quotations in accordance with FAR 12.203(c)(2). The Government expects to award to the lowest-priced acceptable quotation. The Government may award to a higher-priced quotation if the Contracting Officer determines that the additional cost is worth more because of superior Technical Capability (for example, more complete Hawaii licensing coverage, stronger technician credentials, or greater demonstrated operational readiness to perform at remote, restricted Kahuku Training Area) that reduces performance risk. The Government will not pay a premium solely because a quotation is higher-priced. Price and Technical Capability are approximately equal in importance to the award decision. The Contracting Officer may perform a comparative evaluation of quotations in accordance with FAR 12.203(c)(2), including comparing quotations to one another to assess price reasonableness and the acceptability of technical submissions.

1. Price. The Government will evaluate the total overall price for completeness and determine if it is fair and reasonable in accordance with FAR 12.204. The Government expects competitive quotes and will use those quotes to determine price reasonableness. If competitive quotes are not received, the Government reserves the right to utilize other methods available under the FAR.

Completeness. Each quoter is required to provide complete pricing for each priced contract line item (CLIN) identified, including HVAC Sub-CLINs 0003AA, 0003AB, and 0003AC and all option-year twins. This section must be mathematically accurate and include all priced CLINs and the associated option periods. Parent CLIN 0003 (and option-year parents) shall not be priced. CLIN 0006 (Repair Services) and option-year twins 1006, 2006, 3006, and 4006 shall not be priced by the quoter.

Unbalanced Pricing. The quoter shall ensure the pricing of contract line items is not significantly overstated or understated, which may increase performance risk or result in unreasonably high prices. The Government will review HVAC Sub-CLIN unit prices (PTAC, central, and ductless) and assessment unit prices against the Independent Government Estimate and competing quotes.

Total Evaluated Price. For award evaluation purposes, the total evaluated price will be calculated by adding: (i) the total price of the base period priced CLINs; (ii) the total price of all four option periods (FAR 52.217-9); and (iii) one-half of the final option period's priced CLINs (to account for the 6-month option to extend services under FAR 52.217-8). Evaluation of options does not obligate the Government to exercise them. Unpriced repair CLINs (0006 and option twins) are excluded from the total evaluated price.

2. Technical Capability. The Government will evaluate the quality, credibility, and feasibility of the quoter's technical submission to assess operational risk and capability. The evaluation will focus on the following two areas of equal importance. Each subfactor will be rated Acceptable or Unacceptable, and a quote must be rated Acceptable under both to be eligible for award.

Subfactor 1 -- Qualifications and Licenses.

The Government will evaluate whether the following minimum qualifications are met:

a) Project Manager. Whether the identified Project Manager meets the qualifications in the Addendum to FAR 52.212-1.

b) Hawaii contractor licenses. Whether the quote demonstrates current, valid State of Hawaii contractor licenses covering the work: C-13 (Electrical), C-15 (Electronic Systems), and C-52 (Ventilating and Air Conditioning). C-60 (Refrigeration) may be used in addition to, or in lieu of, C-52 for refrigeration-bearing HVAC work. Licenses must be active as of quote submission. A required Hawaii C-license may be held by (i) the quoter, (ii) a Responsible Managing Employee (RME) or other qualifying employee of the quoter, or (iii) a proposed first-tier subcontractor supported by a signed teaming agreement or letter of intent. Failure to demonstrate the required licenses will render the quotation technically unacceptable.

c) Technician credentials. Whether the people who will perform the work hold the required credentials, as applicable: fire alarm / mass notification -- NICET Level II or III and NFPA 72 training; lightning protection -- Journey Worker Electrician (EJ) or Supervising Electrician (ES), NFPA 780 training, and LPI-IT and LPI-IS (or equivalent); HVAC -- Federal EPA Section 608 Universal (or Types I, II, and III) in accordance with 40 CFR Part 82. Credentials may be held by employees of the quoter or of a first-tier subcontractor identified in the quote.

Subfactor 2 -- Operational Readiness.

The Government will evaluate the quoter's demonstrated operational capacity, including whether the narrative shows the necessary equipment, vehicles, tools, and operational capacity to begin performance at Kahuku Training Area on or about 1 January 2027, including the ability to operate at a remote, restricted training area. A narrative that does not address each system type in TE 1 and the remote-site conditions is Unacceptable.

Quotations that fail to meet the minimum licensing and certification requirements of the PWS will be deemed technically unacceptable and will not be considered for award.

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Price

Technical Capability

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
