STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): This amendment is issued to revise the solicitation schedule:
The site visit is rescheduled from Tuesday, 10 November 2026, to Tuesday, 17 November 2026. Offerors interested in attending the site visit shall submit site-visit request information no later than Tuesday, 10 November 2026, at 12:00 p.m. Hawaii Standard Time (HST), via email to Travis Tonini, Contract Specialist, at travis.c.tonini.civ@army.mil, for further instructions.
The deadline for submission of written questions is extended to 10:00 a.m. HST, Thursday, 19 November 2026.
The quotation due date is extended to 10:00 a.m. HST, Tuesday, 8 December 2026.
Quotations shall be submitted electronically via email to the Contract Specialist, Travis Tonini, at travis.c.tonini.civ@army.mil.
Except as expressly modified by this amendment, all other terms, conditions, provisions, and requirements of Solicitation W912CN27QA008 remain unchanged and in full force and effect.

Solicitation/Contract Form

The following changes have been made:

INFORMATION	FROM	TO
Response Due Date	01 Dec 2026	08 Dec 2026

Instructions, Conditions, & Notices to Offerors or Quoters

Miscellaneous text in this section has been modified from:

Addendum to FAR 52.212-1, Instructions to Offerors -- Commercial Products and Commercial Services

Additional Instructions and Information:

1. Quote Submission Instructions.

a. This solicitation is a Request for Quote (RFQ), solicitation number W912CN27QA008. This solicitation will be posted on the System for Award Management (SAM) website at https://sam.gov/. Once posted, it is the responsibility of the quoter to monitor the website for any issued amendments until the closing date. Quotes shall be submitted electronically via email to the Contract Specialist identified below. Faxed quotes will not be accepted.

Contract Specialist Name: Travis Tonini

E-mail Address: travis.c.tonini.civ@army.mil

Contracting Officer: Keely K. Pool

E-mail Address: keely.k.pool.civ@army.mil

b. Quotes must be received by the contracting office on or before the date and time stated in Block 8 of the SF 1449. Local time is Hawaii Standard Time (HST). It is the responsibility of the quoter to ensure quotes are received and acknowledged by the Contract Specialist on or before the closing date.

c. Minimum Quote Acceptance Period. The quoter's submission confirms that its proposed prices are firm and will be held for 120 calendar days per FAR 52.212-1(c).

d. The Government may reject any or all quotes if such action is in the public interest and reserves the right to cancel this RFQ and make no award. By submitting a quote, the quoter acknowledges that the Government shall not be liable for any costs incurred in response to this RFQ.

2. Solicitation Questions.

A summary of questions received, and Government responses, will be provided via amendment posted on SAM.gov. Questions are due by 10:00 AM Hawaii Standard Time on Thursday, 12 November 2026. Questions must be submitted in writing to both the Contract Specialist and Contracting Officer below and may be addressed at the discretion of the Government. Late questions may not receive a response.

Travis Tonini (Contract Specialist): travis.c.tonini.civ@army.mil

Keely K. Pool (Contracting Officer): keely.k.pool.civ@army.mil

3. Site Visit (Restricted Area).

Kahuku Training Area is a restricted U.S. Army training area. A site visit will be held on Tuesday, 10 November 2026. Attendance is strongly encouraged but is not mandatory. Due to the restricted nature of the area, all attendees must be eligible for installation access and must submit visit-request information not later than Friday, 6 November 2026 at 12:00 PM HST. Visit requests shall

be submitted by email to travis.c.tonini.civ@army.mil for further instructions. Offerors that do not attend shall rely on the PWS, Technical Exhibits, and any amendments. Failure to inspect the site will not be a basis for a later claim of unknown site conditions.

4. Quoters shall prepare their quotations in accordance with FAR 52.212-1 and this addendum. A complete quote must be received to be considered for award. Quotes that fail to address all requirements or follow all instructions may be considered ineligible for award. A complete quote includes a response to each of the following:

a. RFQ SF 1449. Complete and sign the SF 1449 in its entirety, paying particular attention to Blocks 12, 17a, and 30a-c, which must be completed and signed by an authorized representative. All amendments must be acknowledged. Quotes that do not include a properly completed and signed SF 1449, including acknowledgment of all amendments, may be rejected or considered ineligible for award.

b. RFQ SF 1449 -- Continuation Sheet / Section B. Complete by providing the unit price and extended amount for all priced contract line-item numbers (CLINs), including all option CLINs and HVAC Sub-CLINs (0003AA, 0003AB, 0003AC and option-year twins). Failure to price all required CLINs may render the quotation incomplete and ineligible for award.

Do not price the Repair Services CLIN (CLIN 0006 and option-year CLINs 1006, 2006, 3006 and 4006). Repairs will be priced after award on Contracting Officer-issued firm-fixed-price task orders using Technical Exhibit 2. The Government-estimated amount shown for that CLIN is for planning only and is not part of the total evaluated price.

c. Offeror Price Quote Form (Excel). Complete the attached Excel pricing form. Ensure all quoted amounts do not exceed two (2) decimal places. The completed form must be submitted with the quotation. No alternate pricing formats will be accepted. Do not enter a price for the Repair Services CLIN.

d. Past performance is not an evaluation factor, and quoters should not submit past performance information. Before award, the Contracting Officer will make a responsibility determination on the apparent successful quoter, which may include review of the Contractor Performance Assessment Reporting System (CPARS), SAM, and other available information.

e. Technical Capability Submission. The quoter shall submit documentation demonstrating compliance with the minimum technical requirements of the solicitation and Performance Work Statement (PWS). The submission shall be a stand-alone document not exceeding 10 pages, excluding resumes, certificates, licenses, permits, teaming agreements, and letters of intent. If an individual is assigned to multiple roles (e.g., Project Manager and technician), documentation must validate their qualifications for each role. The technical capability submission shall address both subfactors below. A quote must be rated Acceptable under both subfactors to be eligible for award. Information beyond the minimum requirements may be considered in a comparative evaluation as described in Section M. Copies of required licenses and certifications shall be submitted with the quote so the Government can verify them before award.

Subfactor A -- Qualifications and Licenses:

Project Manager:

1) Provide the name and contact information of the designated Project Manager (and alternate, if applicable).

2) Provide a statement or documentation confirming the PM is authorized to work in the U.S., is proficient in the English language (able to read, write, speak, and understand English), and can obtain and maintain installation access (Army Installation Access Control / AIE) at Kahuku Training Area prior to the contract start date.

3) Provide objective evidence (e.g., resume, work history) demonstrating the PM holds a bachelor's degree or has at least five (5) years of experience managing contracts of similar scope and complexity (preventive maintenance and repair of HVAC, fire alarm / mass notification, emergency lighting, and/or lightning protection systems).

Licenses and certifications (submit copies with the quote -- before award):

4) Hawaii contractor licenses. Provide a current, valid copy of each of the following State of Hawaii contractor licenses covering the work: C-13 (Electrical), C-15 (Electronic Systems), and C-52 (Ventilating and Air Conditioning). C-60 (Refrigeration) may be submitted in addition to, or in lieu of, C-52 for refrigeration-bearing HVAC work. Licenses must be active at the time of quote submission so the Government can verify them before award.

A required Hawaii C-license may be held by any of the following: (i) the quoter (the company); (ii) a Responsible Managing Employee (RME) or other qualifying employee of the quoter; or (iii) a proposed first-tier subcontractor. If a subcontractor is used to satisfy a license, include a signed Teaming Agreement or Letter of Intent with the quote. If an employee of the quoter holds the license (RME / qualifying person), identify that employee by name and attach the license copy. See PWS Section 2.1.11.1.1 and 2.1.11.1.2.

5) Technician credentials. Provide copies of the credentials held by the people who will perform the work, as applicable: fire alarm / mass notification -- NICET Level II or III and NFPA 72 training; lightning protection -- Journey Worker Electrician (EJ) or Supervising Electrician (ES), NFPA 780 training, and LPI-IT and LPI-IS (or equivalent); HVAC -- Federal EPA Section 608 Universal (or Types I, II, and III) in accordance with 40 CFR Part 82. These may be held by employees of the quoter or of a first-tier subcontractor identified in the quote. Do not submit a staffing plan in lieu of the actual copies.

6) Provide a statement confirming all contractor employees and subcontractor personnel who will work on this contract are legal U.S. residents and can communicate clearly in English.

Subfactor B -- Operational Readiness:

Equipment and Site Capability:

Provide a brief narrative demonstrating the operational capacity to begin performance on or about 1 January 2027, including a description of service vehicles, tools, and diagnostic equipment sufficient to independently inspect, test, maintain, and repair HVAC (PTAC, central, and ductless), fire alarm and mass notification, emergency lighting and exit signs, and lightning protection systems at Kahuku Training Area. The narrative shall address performance at a remote, restricted training area (Range Control access; no potable water on site; contractor-furnished tools, vehicles, and water). The narrative should identify the vehicles, tools and diagnostic equipment for each system type (HVAC, fire alarm/mass notification, emergency lighting and exit signs, lightning protection), how the quoter will meet the PWS response times at KTA, and how it will handle Range Control access and the lack of water on site.

Responsible Use of Artificial Intelligence. The Government reserves the right to employ Artificial Intelligence (AI) tools and platforms to assist in support tasks such as summarizing voluminous content, highlighting compliance with basic solicitation requirements, and organizing proposal data for evaluator review. AI will be used only as a tool to support decision-makers. AI will not be used to make evaluative judgments or selections, or to replace the independent assessment of source selection personnel. Source selection personnel remain exclusively responsible for the accuracy, integrity, and final approval of all acquisition actions, including final evaluations, adjectival ratings, best-value determinations, and selection decisions. Any AI platform or tool used by the Government will comply with Department of War cybersecurity frameworks at Impact Level 5 (IL5) or higher to safeguard contractor bid, proposal, and proprietary data, and will not use contractor data to train external or commercial AI models.

Note: To be eligible for award, quoters must maintain an active registration in the System for Award Management (SAM) with current, fully completed representations and certifications both at the time of quote submission and at the time of award. This acquisition is a 100 percent Total Small Business Set-Aside under NAICS 561210.
