Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Quotes will be evaluated based on the lowest overall quoted price, who meets the Government's minimum technical requirements of the solicitation and Statement of Work (SOW). Quoters who do not take exception to the solicitation and meet the minimum technical requirements of this solicitation will be considered technically acceptable. All technically acceptable quotes will be evaluated for price reasonableness and award will be made to the lowest priced quote which is technically acceptable. Contract quotes are requested to remain valid for a minimum of 60 days.

(b) *Options (if applicable).* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award.* A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
