TOTAL	**28 SLINs**	**Total Extended Evaluation Price (Sum of SLINs 0001AA through 0007AD)**	**—**	**21,480**	**—**	**$_____**

Mandatory Pricing & Evaluation Instructions:

• **1. How to Complete This Pricing Schedule:** Offerors shall propose one firm-fixed Unit Price ($ USD, rounded to two decimal places) in Column 6 for each of the twenty-eight (28) priced Subline Items (SLINs 0001AA through 0007AD). Multiply the Quantity for Evaluation Purposes Only (Column 5) by your Proposed Unit Price (Column 6) to calculate the Extended Evaluation Price (Column 7) and sum all 28 extended prices at the bottom of Column 7 (21,480 total evaluation units) to establish your Total Extended Evaluation Price (TEP).

• **2. Purpose of Evaluation-Only Quantities (*):** The estimated annual quantities in Column 5 (totaling 21,480 units across all 28 SLINs) are provided solely for evaluation purposes to establish an objective, uniform Total Extended Evaluation Price (TEP) for selecting five (5) BPA holders and establishing their initial rotational order (Vendor 1 through Vendor 5). They do not obligate the Government to order any minimum quantity. On actual BPA calls, the Government will order the exact number of rental days and service visits required for the specific exercise and pay the awarded firm-fixed SLIN unit price.

• **3. Geographic Coverage & SCLS Wage Determinations:** Each CLIN is subdivided into four (4) geographic SLINs covering all three performance counties across New Mexico and Texas: **SLIN AA** (Doña Ana Range - Doña Ana County, NM, SCLS **WD 2015-5447**), **SLIN AB** (McGregor Range - Otero County, NM, SCLS **WD 2015-5455**), **SLIN AC** (Oro Grande Range -

Otero County, NM, SCLS **WD 2015-5455**), and **SLIN AD** (Fort Bliss Main Cantonment, Biggs Army Airfield & El Paso County, TX Training Sites - SCLS **WD 2015-5229**).

• **4. All-Inclusive Unit Prices:** All proposed unit prices shall be all-inclusive of labor, equipment, water, transportation, fuel, initial delivery, setup, 45 MPH wind anchoring, joint inspection, scheduled servicing, cleaning, sanitization, pumping, off-post permitted waste disposal, restocking, spill prevention, spill remediation, post-call removal/pickup, insurance, overhead, and profit. Initial delivery, setup, anchoring, and final post-call removal/pickup are included in the daily rental rates (CLINs 0001 & 0003) and shall not be billed separately.

• **5. Unit of Issue Definitions (Days vs. Each):** Under CLINs 0001 and 0003, **1 Day** equals one portable unit rented for one active BPA call day. Under CLINs 0002 and 0004, **1 Each** equal one (1) scheduled service visit for one (1) portable unit (e.g., 10 latrines serviced twice weekly for 2 weeks = 40 Each). Under CLINs 0005 and 0006, **1 Each** equal one (1) unit relocated once after initial placement. Under CLIN 0007, **1 Each** equals one (1) trip drop/service during an authorized after-hours, weekend, or holiday emergency event.
