PERFORMANCE WORK STATEMENT (PWS)

Generator Monitoring

PART 1

GENERAL INFORMATION

1. **GENERAL:** This is a non-personal services contract to provide Generator Monitoring. The Government shall not exercise any supervision or control over the contract service providers performing the services herein. Such contract service providers shall be accountable solely to the Contractor who, in turn, is responsible to the Government.

1.1 **Description of Services/Introduction:** The Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform Generator Monitoring as defined in this Performance Work Statement, except for those items specified as government furnished property and services. The Contractor shall perform to the standards in this contract.

1.2 **Background:** This is a requirement to provide equipment, equipment maintenance and monitoring for up 15 located at Fort Jackson. Federal environmental regulations 40 CFR Part 60 Subpart IIII, JJJJ and 40 CFR Part 63 Subpart ZZZZ require the owner/operator of generators to maintain records on-site of the date of operation and hours of operation for every start-up. Fort Jackson's generators are located at various sites throughout the installation and most are difficult to physically monitor due to a lack of manpower. Existing wireless cellular devices on each generator send data to a monitoring web site that provides real-time monitoring information, alleviates the need for additional personnel and enables the installation to meet regulatory requirements.

Fort Jackson has 15 generators that need to be monitored. These generators are located at the Network Enterprise Centers (NEC), Post Headquarters Department of Emergency Services, Range Operations, NCCA, and Gates 4 and 5.

1.3 **Objectives:** This contract shall provide monitoring for existing Omnimetrix cellular monitors on 15 generators to ensure compliance with environmental regulations.

1.4 **Scope:** The Contractor shall provide Fort Jackson with access to the Omnimetrix online portal that maintains real-time, up to date operating information for each generator. The contractor shall also provide maintenance and/or replace monitors that are no longer functioning. The maintenance technician shall be based within an hour of the FJ area and must be on-site for maintenance and troubleshooting activities within72 hours.

1.5 **Period of Performance:** The period of performance shall be for one (1) Base Year of 12 months and nine (9) 12-month option years starting on ~~1 November 2026~~ 1 January 2027.

1.6 General Information

Immigration Customs Enforcement (ICE) Mutual Agreement between Government and Employer (IMAGE) Program

1. It is highly desired all prime and Subcontractors working on Fort Jackson join the Department of Homeland Security (DHS) ICE Mutual Agreement between Government and Employers (IMAGE) Program and become IMAGE certified. A known vulnerability on Fort Jackson has been the presence of unauthorized aliens (undocumented workers) who have secured jobs by fraudulent means, including presentation of false documents, completion of fraudulent benefit applications, and theft of identities. To combat unlawful employment and reduce vulnerabilities that help illegal aliens gain employment, the Department of Homeland security (DHS) recently introduced the ICE Mutual Agreement between the Government and Employers (IMAGE) program. The goal is to assist employers in targeted sectors to develop a more secure and stable workforce and enhance fraudulent documentation awareness through education and training. The website for IMAGE is http:/www.ice.gov/partners/opaimage/

2. Upon enrollment and implementation of the DHS's best hiring practices program participants will be deemed "IMAGE Certified"—a distinction DHS believes will become an industry standard.

3. All IMAGE participants gain membership to DHS's Basic Pilot Employment Verification Program administrated by USCIS. Though this employee authorization verification program, employers can verify newly hired employees are eligible to work in the United States. The internet-based system is available in all 50 states and is currently free to employers. It provides an automated link to the Social Security Administration database and DHS immigration records. To sign up for participation in the Basic Pilot Employment Verification Program, visit the registration Web site:

http://www.is- dhs.com/EmployerRegistration/

4. For more information on the IMAGE Program, please visit the IMAGE FAQ page. You may request an information packet via the IMAGE Information Packet Request form.

(1) Presidential monitoring and improvements in system.-

(A) Monitoring.-The President shall provide for the monitoring and evaluation of the degree to which the employment verification system established under subsection (b) provides a secure system to determine employment eligibility in the United States and shall examine the suitability of existing Federal and State identification systems for use for this purpose.

(B) Improvements to establish secure system.-To the extent that the system established under subsection (b) is found not to be a secure system to determine employment eligibility in the United States, the President shall, subject to paragraph (3) and taking into account the results of any demonstration projects conducted under paragraph (4), implement such changes in (including additions to) the requirements of subsection (b) as may be necessary to establish a secure system to determine employment eligibility in the United States. Such changes in the system may be implemented only if the changes conform to the requirements of paragraph (2).

(2) Restrictions on changes in system.-Any change the President proposes to implement under paragraph (1) in the verification system must be designed in a manner so the verification system, as so changed, meets the following requirements:

(D) Privacy of information.-The system must protect the privacy and security of personal information and identifiers utilized in the system.

(E) Limited denial of verification.-A verification that an employee or prospective employee is eligible to be employed in the United States may not be withheld or revoked under the system for any reason other than that the employee or prospective employee is an unauthorized alien.

(F) Limited use for law enforcement purposes.-The system may not be used for law enforcement purposes, other than for enforcement of this Act or sections 1001, 1028, 1546, and 1621 of title 18, United States Code.

(G) Restriction on use of new documents.-If the system requires individuals to present a new card or other document (designed specifically for use for this purpose) at the time of hiring, recruitment, or referral, then such document may not be required to be presented for any purpose other than under this Act (or enforcement of sections 1001, 1028, 1546, and 1621 of Title 18, United States Code) nor to be carried on one's person.
