SUMMARY OF CHANGES

Section C - Description/Specifications/Statement of Work

Miscellaneous text in this section has been modified to:

AMENDMENT 0001 CONTINUATION PAGE:

Solicitation N40085-27-R-0004 Range Maintenance and Repair Support Services

This amendment should be acknowledged when your proposal is submitted. Failure to acknowledge may constitute grounds for rejection of your proposal.

Question 1

1. Teaming and joint ventures. Section M, Factor 1 states that teaming arrangements and joint ventures are excluded, while the pre-solicitation Amendment 0001 answers state that the joint venture and teaming language was a mistake. Will an amendment remove the exclusion? If so, may the experience and past performance of a subcontractor or teaming partner count toward the three required projects?

Answer:

1a. Amendment 0001 to the pre-solicitation notice shall be corrected for the team arrangements and joint ventures language within this solicitation amendment.

1b. Section M of this solicitation regarding team arrangements and joint ventures shall read as follows: **Teaming arrangements and joint ventures relevant experience will be considered for this requirement.**

If the experience and past performance of a subcontractor or teaming partner is used for corporate experiences, the relevant experiences must represent Factor 1, Factor 2, and Factor 3 to meet the criteria for an acceptable rating. (This amendment references the changes to Section L and M changes in the factors, see below).

Question 2

2. Subcontractor role projects. The Corporate Experience Form includes a Prime Contractor or Subcontractor role block. Will projects the offeror performed as a subcontractor be accepted, and is the $250,000 to $1M annual value measured on the offeror's own portion of the work?

Answer:

Projects submitted where the offeror performed as a Prime Contractor or Subcontractor are required to meet the value of $250,000 to $1M annual threshold in Factor 1 will be accepted. Therefore, Factor 1 relevant Corporate Experience projects must be the projects measured throughout Factor 2, and Factor 3 to determine the offeror's capabilities to meet the requirements of the solicitation.

Question 3

3. Project size and key personnel. Will projects valued below $250,000 annually be considered, or could the threshold be lowered? Will the relevant experience of the offeror's proposed key personnel, such as the Project Manager, be considered toward Factor 1?

Answer: Projects valued below $250,000 annually will not be considered relevant, the threshold will not be lowered. The scope, size, and complexity of the work shall be measured as relevant factors not personnel positions.

Question 4

4. Relevant scope. Factor 1 describes acceptable projects as those showing the ability to operate, monitor, and calibrate equipment at range locations. Will facility maintenance and repair, grounds maintenance, carpentry, fencing, and similar repair work on non-range facilities be considered relevant?

Answer: Factor 1 requires offerors to demonstrate experience operating, monitoring, and calibrating specialized equipment at range locations. Routine facility maintenance, grounds maintenance, carpentry, fencing, and similar repair work performed on non-range facilities do not satisfy the relevance criteria for Factor 1."

Question 5

5. Safety rates for a newer firm. Section L requests DART and TCR rates for the previous five complete calendar years. For years in which a firm had no employees or no recordable hours, is an affirmative statement with an explanation acceptable, and will it be rated Acceptable under Factor 2?

Answer: If the offer has no DART Rate or TCR rate for any year per Safety Factors, affirmatively state so and explain why.

Question 6

6. Past performance with no record. If an offeror has no relevant CPARS or past performance, will it be rated neutral and treated as acceptable under Factor 3? Also, the PPQ (Attachment D) referenced in Section L does not appear in the posted attachments. Could it be posted?

Answer: Attachment D Provided in this amendment

Question 7

7. Copy count and address. SF33 Block 9 calls for an original and 3 copies, while Section L calls for an original and 2 copies of the price submittal. Please confirm the number of copies for each volume. Please also confirm the ZIP code, as Section L lists 28546 and the cover page lists 28547-2521.

Answer: For clarification, Block 9 to read as original and 2 copies, please submit the following:

- Technical/Factors: One (1) Original and two (2) hard copies.
- Price/Business: One (1) Original and two (2) hard copies.

- The correct zip code 28547-2521

Question 8

8. Electronic submission. Section A states that email and fax proposals will not be accepted. May an offeror also provide an electronic copy (email or DoD SAFE) in addition to the required hard copies?

Answer: As stated in Section A, no email and no facsimile proposal will be accepted.

Question 9

9. Certified cost or pricing data. Section L requires Attachment L2, Certificate of Current Cost or Pricing Data, in the price package. Since this is a competitive LPTA small business set-aside, please confirm whether certified cost or pricing data is required at proposal submission.

Answer: Attachment L2 is required to be submitted with the offeror price proposal. This information will not be evaluated as part of the price proposal; however, this information is the basis of your firm's responsibility determination should your firm be considered for award. The offeror must meet the requirement of responsibility pursuant to FAR 9.104-1.

Question 10

10. Whether the Government will accept signed first tier subcontractor size representations identifying the NAICS code assigned to each subcontract, together with proposed actual performance and lower tier subcontracting disclosures, as supporting documentation for the offeror's proposed similarly situated entity arrangement.

Answer: Any offeror submitting a proposal for the requirement must submit their work experience under the required NAICS 561210 relevant size, complexity, and scope of work. Factor 1 relevant Corporate Experience projects must be the projects measured throughout Factor 2, and Factor 3 to determine the offeror's capabilities to meet the requirements of the solicitation.

Question 11

11. Whether the Government requires any specific certification form, supporting records or additional documentation with the technical proposal beyond the Section L explanation of in-house and subcontracted performance percentages.

Answer: FAR clause 52.219-14 Limitation on subcontracting (Deviation 2026-O0038) provides the percentages based on the contract type and size. This is a services contract.

12. Whether the Contracting Officer intends the limitation on subcontracting compliance period to be measured by the base and each option period or separately for individual task orders.

Answer: In accordance with FAR clause 52.219-14 Limitation on subcontracting (Deviation 2026-O0038 compliance with the limitation on subcontracting will be determined by the end of the performance period for each individual order issued under the contract.

Question 13

13. We intend to submit a bid for the subject solicitation using our SDVOSB Joint Venture. I wanted to confirm the Q&A in the attached Amendment 01 and language in the screenshot below taken from the Solicitation. Will it be acceptable to submit a proposal by our Joint Venture (which meets the small business set aside requirements) for consideration of award?

Answer: Per this amendment, Teaming arrangements and joint ventures relevant experience will be considered for this requirement.

Question 14

14. Could you please confirm whether a bid guarantee, performance bond, or payment bond is required for this solicitation or any resulting task orders? If so, please identify the applicable solicitation clause/section, amount or percentage, and timing for submission.

Answer: Bid guarantees, performance bonds, and payment bonds, are not required for this solicitation or any resulting task orders. This is a services solicitation not a construction requirement.

Question 15

15. Do the estimated annual IDIQ quantities reflect a significant expansion of the anticipated workload compared with the predecessor contract, or are they established primarily for proposal evaluation purposes?

Answer: Present quantities are based on added facilities over the years.

Question 16

16. Does the Government anticipate ordering approximately 50,000 labor hours annually, or should this quantity be interpreted as an estimated maximum ordering capacity?

Answer: The IDIQ 50,000 labor hours annually is the maximum quantity.

Question 17

17. Please clarify how offerors should price the materials quantity of 3,500,000, including whether it represents an estimated annual expenditure, a not-to-exceed amount, or another pricing basis.

Answer: The IDIQ material extended price of $3,500,000.00 is a Not to Exceed amount.

Question 18

18. Has the Government substantially expanded the scope of recurring and non-recurring services compared with the predecessor contract? If so, please identify the principal changes.

Answer: The Government has expanded the existing services due to the extension of the contract, and the offeror should make their own determination for pricing.

Question 19

19. Will the Government be posting historical annual labor hours and material expenditure under N40085-21-D-0011?

Answer: The Government will not be posting or providing historical annual labor hours or material expenditures under contract N40085-21-D-0011. Offerors are expected to develop their own independent staffing estimates, labor hours, and pricing based on the requirements set forth in the Performance Work Statement (PWS), equipment inventories, and workload schedules included in the solicitation.

Question 20

20. Material costs: The schedule lists an estimated quantity of 3,500,000 with a unit of "LS" for each year. Does this represent a $3.5 million material allowance? Should offerors enter a cost multiplier, a markup percentage, or a dollar unit price? Please confirm how the extended price should be calculated.

Answer: The schedule list for IDIQ material extended price of $3,500,000.00 is a Not to Exceed amount.

Question 21

21. Labor hours: Please confirm that the 50,000 labor hours listed for each performance year are correct and that offerors should multiply that quantity by their fully burdened hourly rate.

Answer: The Labor hours of 50,000 for each performance year is correct offeror must provide their unit price and multiply quantity by their fully burdened hourly rate.

Question 22

22. Price evaluation: Will the full extended amounts for these estimated nonrecurring quantities be included in the evaluated price for the base year and all four option years?

Answer: The full extended amounts for non-recurring work (estimated quantities multiplied by proposed rates/multipliers) are evaluated across the base year and all four (4) option years.

This information shall be included in Section L Instructions, Conditions, and Notices to Offerors or Quotes for the solicitation:

Factor 1, Corporate Experience

If the offeror is a Joint Venture (JV), relevant experience should be submitted for projects completed by the Joint Venture entity. However, the offeror may submit relevant experience for each member of the JV if there is no relevant shared experience. If the Offeror is submitting experience for individual JV partners in which the company was a partner in a different Joint Venture entity, the Offeror must specifically address what portion of the work under the submitted project was performed by the JV partner offering on this contract and demonstrate that the work on the proposed project meets the Size, Scope, and Complexity as defined above, or the project will not be considered relevant. Offerors are still limited to a total of three (3) projects combined. Offerors proposing as a JV shall submit a signed JV agreement. For Mentor-Protege Joint Ventures, the offeror shall submit the signed and U.S. Small Business Administration (SBA) approved Mentor-Protege agreement.

If an Offeror is utilizing the prime contractor experience of a corporate affiliate (e.g., subsidiaries, sister companies, predecessor companies, and parent companies) or, for small businesses, a first-tier small business subcontractor; the proposal shall include, on the corporate affiliate or first-tier small business subcontractor's letterhead, a teaming agreement or letter of commitment. In order for the experience to be considered, the Offeror is also required to clearly demonstrate that the corporate affiliate(s) or first-tier small business subcontractor(s) will have meaningful involvement in the performance of the contract by identifying the personnel or resources from the corporate affiliate(s) or first-tier small business subcontractor(s) that will be dedicated to the contract.

This information shall be included in Section M Evaluation Factors for Award of the solicitation:

Corporate Experience

In accordance with 13 CFR 125.2, small business Offerors may utilize the prime contractor experience of a small business first-tier subcontractor(s) to demonstrate experience under this evaluation factor if that small business Offeror cannot independently satisfy the experience requirement as defined above. Considering 13CFR 125.2, the Offeror or the Offeror's small business first-tier subcontractor shall have been the prime contractor on at least one (1) relevant project as defined above. In order to utilize the experience of a small business first-tier subcontractor(s), the offeror must specifically identify the proposed small business first-tier contractor(s) in its proposal. 13 CFR 125.2 does not apply to large business Offerors, large business subcontractors, or large business corporate affiliates.
