Question

For accurate bid/no-bid eligibility screening, could you please clarify in writing (1) whether participation at the November 12 site visit is mandatory for an offer to be considered responsive, and (2) whether any late individual attendee registration or alternative lawful site-information access is permitted after the November 9 date?

Answer:

Site visit attendance is strictly optional; prospective offerors are fully eligible to submit a proposal regardless of their participation in the site visit."

In some cases, contractors visit the site before or after site visits for additional looks, but there won't be opportunities for self-conducted visits considering the nature of the locations and activities conducted there by our military. Any additional information not currently provided on SAM.gov will be posted via an amendment on the site which will most likely be done through RFIs.

The Government will provide a bus for all registered attendees planning to attend the site visit, no privately owned vehicles (POV's) will be allowed due to installation policy and range safety restrictions
