STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	Amendment 0004 is necessary to address concerns posed from industry and add Clause 52.228-5 to the Solicitation Provisions and Clauses. Closing remains Monday, November 16, 2026, at 2:00pm. All other terms and conditions remain unchanged. Mold remediation, Merritt Island NWR Tech POC Name/#: Keith Ramos (321) 861-2278 Contract POC: Fred Riley, Fred_riley@ios.doi.gov				

Questions and Answers

Question 1: PWS Section 4.3 says an asbestos inspection report would be provided before the solicitation. It is not among the posted attachments. Can you provide it, or confirm none exists?

Answer 1: The Government has located a February 2012 Comprehensive Asbestos Survey that includes the project facility, identified as the Fire Cache/Administrative Building. The survey will be provided as an attachment to the solicitation amendment.

Because the 2012 survey does not address every material anticipated to be disturbed under the current mold-remediation scope, the Government will also obtain a supplemental, affected-area asbestos inspection. The supplemental report will be provided to the Contractor before intrusive work begins.

Offerors shall not include asbestos inspection, testing, or abatement in their proposed prices. If the supplemental inspection identifies asbestos-containing material that affects the scope, schedule, or performance requirements, the Government will address it through an appropriate solicitation amendment or contract modification before the affected material is disturbed.

Question 2: Insurance: PWS Section 10 states that insurance requirements will be established in the solicitation. Please provide the required coverages and minimum limits.

Answer 2: The Contractor shall maintain the following insurance throughout contract performance:

1. Workers' Compensation: Statutory limits required by applicable Federal and Florida law.

2. Employer's Liability: Not less than $100,000.

3. Commercial General Liability: Not less than $500,000 per occurrence for bodily injury.

4. Automobile Liability for vehicles used in contract performance: Not less than $200,000 per person and $500,000 per occurrence for bodily injury, and $20,000 per occurrence for property damage.

5. Contractor's Pollution Liability, including mold-related operations: $1,000,000 per occurrence or claim and $2,000,000 aggregate.

The Contractor shall provide evidence of the required insurance before commencing work. Required coverage shall apply to subcontractors performing work on the Government installation, consistent with FAR 52.228-5.

Question 3: The Bio Pro assessment report recommends removal of affected attic roof decking and replacement of the conference-room flex duct. The PWS excludes both (cleaning of decking only; flex duct removal only). Please confirm that offerors should price strictly to the PWS.

Answer 3: Confirmed. Offerors shall price the work expressly defined by the PWS. The base scope includes cleaning and remediation of retained attic roof decking and removal and disposal of the identified contaminated conference-room flex-duct branch. Roof-deck removal or replacement and flex-duct replacement are excluded.

The assessment report documents existing conditions and informs the remediation protocol, but it does not add reconstruction or replacement work expressly excluded by the PWS. If roof decking cannot be successfully remediated, or additional replacement work is determined necessary, the condition shall be documented and referred to the Government for separate action. No excluded work may be performed without written authorization from the Contracting Officer.

Question 4: Have the identified water-intrusion sources at the north-side walls and window assemblies already been corrected?

Answer 4: No. The source of water intrusion at the north-side window assemblies has not yet been permanently corrected. The Government will have the affected window assemblies secured and sealed before mold-remediation work begins.

Question 5: If not, does the Government have a separate repair plan, and are those corrections anticipated before mold-remediation work begins?

Answer 5: Yes. Before mold-remediation work commences, the Government will have the affected north-side window assemblies secured and sealed. This work is separate from the mold-remediation contract and shall not be included in the Contractor's proposed price. The mold-remediation Contractor will not be held responsible for subsequent water intrusion through the Government-repaired or sealed window assemblies, or for water damage or mold growth resulting from such intrusion. This allocation does not relieve the Contractor of responsibility for intrusion or damage directly caused by its own actions, damage to the completed repair or weatherproofing, or failure to protect an opening created during its work.

Question 6: If permanent repairs will occur later, will temporary weatherproofing or other moisture-control measures be provided to prevent additional intrusion during remediation and clearance?

Answer 6: Yes. The Government will provide temporary exterior covering or weatherproofing at the affected north-side window assemblies before intrusive remediation activities. The temporary protection will be maintained as necessary to prevent additional water intrusion until the permanent window repairs are completed. The mold-remediation Contractor remains responsible for protecting any openings it creates, maintaining containment and temporary humidity control, and promptly reporting any evidence of additional moisture intrusion.

Question 7: If additional water intrusion occurs during the remediation or drying period, how will the resulting interruption, restoration of acceptable conditions, and any necessary schedule or scope adjustments be addressed?

Answer 7: If additional water intrusion occurs, the Contractor shall immediately notify the COR, document the condition with photographs and moisture readings, and suspend work in the affected area when necessary to protect personnel, containment, completed work, and materials to remain. The Contractor shall take reasonable temporary protective measures within its control but shall not perform permanent building-envelope repairs or expand the remediation scope without written authorization from the Contracting Officer. The Government will evaluate and address the source of the new intrusion and will authorize resumption of affected work after the area is adequately protected. Before post-remediation verification, the affected area must again meet the SOW requirements for drying, cleanliness, moisture content, and relative humidity. If the additional intrusion or resulting deficiency is attributable to the Contractor's failure to maintain required protection, containment, temporary closures, or humidity control, corrective work and repeat testing will be performed at no additional cost to the Government. If the intrusion is outside the Contractor's control, any demonstrated effect on contract time, cost, or scope will be evaluated under the applicable contract terms and must be authorized through a written contract modification. No adjustment is automatic.

Question 8: The contractor's pollution liability requirement calls for coverage that includes mold-related operations, but the minimum limit is blank. Could you confirm the required per-occurrence and aggregate limits, and whether the air-handler cleaning subcontractor must carry its own pollution liability policy or can be covered under the prime contractor's policy?

Answer 8: Contractor’s Pollution Liability limits of $1,000,000 per occurrence or claim and $2,000,000 aggregate. Coverage should specifically include mold, fungi, microbial contamination, HVAC and air-handler cleaning, containment failure, cleanup, transportation, and disposal. The prime contractor should maintain this coverage, and any subcontractor performing air-handler, duct-cleaning, or other mold-related work should carry its own pollution-liability coverage at the same limits, even if the prime contractor’s policy also provides coverage. Certificates of Insurance should be required before the applicable work begins.

Question 9: If our subcontractor performs the on-site work and carries all of the required coverages (workers' compensation, employer's liability, general liability, automobile and pollution liability), with our company and the United States named as additional insureds, would that satisfy the requirement? Or must the prime contractor hold these policies in its own name?

Answer 9: The subcontractor insurance coverage can satisfy the insurance requirements provided that their policy meets the contract requirements and properly protects the prime contractor. The Contractor shall maintain a copy of all subcontractors’ proofs of required insurance and shall make copies available to the Contracting Officer upon request.

This is a request for quotes (RFQ) in accordance with FAR subpart 13.5 and FAR part 12. This posting will be referred to under Request for Quotes (RFQ) Number 140FF027Q0053. The North American Industrial Classification System (NAICS) number is 562910, Remediation Services and the business size standard is $25 million. The Government contemplates award of a Firm Fixed Price contract resulting from this solicitation.

The Government must exercise its post-acceptance rights-
(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(u) Unauthorized Obligations.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:
(i) Any such clause is unenforceable against the Government.
(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. The Government will evaluate offers in accordance with the policies and procedures of FAR part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.
Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals–
□ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
□ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;
□ Are, □ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and
□ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.
Taxes are considered delinquent if both of the following criteria apply:
The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay

the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

Examples.
The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
