Minimum Salient Specifications

<u>42 inch Waterman C-20 Cast Iron Round Gate:</u>

DESCRIPTION: C-20 gates offer reliable water control on canal, drainage control and pipeline systems which operate at low and medium heads. They may be used on applications where the gate sees head pressure on both the front (seating) and

back (unseating) surfaces, if sized based on the table provided. Designed for years of reliable service, offering a typical life exceeding 40 years. Typical installations include: water delivery canals and channels, farm turnouts, control of industrial wastes, drainage and tide control.

STANDARD FEATURES

• The cover, frame ring, adjustable wedges, and arch, are made of cast iron.

- Flatback mounting
- 304 Stainless Steel (SS304) Stem, Rail, and Assembly Hardware
- The lift nut is cast bronze and utilizes rugged acme type threads.
- Adjustable cast iron wedge blocks feature two machine bolts for dependable seating and water tightness
- H: 120”
- 3R4 Geared Lift

Deliver to: Wheeler National Wildlife Refuge
2700 Refuge Headquarters Road,
Decatur, AL 35630
