Purchase Description: Environmental Compliance and Restoration Support Services for Pine Bluff Arsenal

Background

Pine Bluff Arsenal (PBA) supports Department of Defense missions, including ammunition manufacture and demilitarization, while maintaining compliance with environmental regulations such as the Clean Air Act (CAA), Clean Water Act (CWA), Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Restoration and Compensation Liability Act (CERCLA), Spill Prevention, Control, and Countermeasure (SPCC) regulations, and Defense Environmental Restoration Program (DERP) requirements. PBA seeks contract services to augment ongoing laboratory evaluations and ensure continued compliance as the current contract expires December 2026.

Scope of Work

The contractor shall provide comprehensive environmental compliance and restoration support services, including:

Task 1: Ecological Surveys

- Conduct annual ecological surveys as required by DEQ, RCRA, and NPDES permits, assessing water, sediment, and biological status of surface waters at specified SWMU sites.
- Monitor effectiveness of pollution abatement and regulatory compliance measures.
- Prepare annual and 5-year ecological monitoring reports, including sampling, analysis, and comparison to background and screening levels.

Task 2: Toxicity Testing Compliance

- Perform quarterly acute and chronic toxicity testing at four NPDES outfalls, in accordance with permit AR0001678.
- Provide additional support for permit renewal and regulatory response.
- Optionally conduct toxicity identification/reduction evaluations as needed.

Task 3: Groundwater Hydrogeological Assessments

- Conduct annual statistical assessments of groundwater data from RCRA permit and corrective action sites, including 111 monitoring wells.
- Prepare detection monitoring reports for regulated units and corrective action sites, utilizing statistical methods (Shewhart-CUSUM, Mann-Kendall, etc.).
- Provide annual and 5-year groundwater assessment reports.

Task 4: Geographic Information System (GIS) Support

- Maintain and update PBA's GIS database, upload analytical data, update maps, and provide staff training.

Task 5: Stormwater Compliance

- Sample and test stormwater at designated outfalls per NPDES permit and SWPPP.
- Submit laboratory analyses and corrective action plans as needed.
- Prepare Storm Water Annual Reports and provide permit renewal/modification support.
- Provide annual training and construction stormwater support as required.

Task 6: Regulatory Compliance Assistance

- Provide multimedia compliance services for CAA, CWA, RCRA, CERCLA, and SPCC.

- Review and revise SPCC plans, support RCRA permit modifications and renewals, assist with CAA emissions inventory and Title V permit renewals, and support CWA permit renewals.

Task 7: Restoration Regulatory Support

- Support Defense Environmental Restoration Program compliance, including administrative law and technical support for interim effluent conditions, rulemaking, and permit modifications.
- Assess hydraulic retention time improvements and contaminant migration in Phillips Creek and Arkansas River.
- Inspect and repair leachate collection systems at hazardous waste landfills.

Task 8: Domestic Water Supply Well Removal

- Remove or abandon unused or insufficient water supply wells on PBA property, one per year.

Task 9: Travel Reimbursement

- Reimburse contractor travel expenses as required for onsite activities.

Contract Terms

- Initial base year with four renewable option years (total possible five years).
- On-call technical assistance for contract deliverables.
- Workdays: Monday–Friday, 7:00 AM–5:00 PM Central Time.
- Five-day advance notification required for site visits.
- Mandatory safety briefing for all contractor personnel prior to work commencement.
