Questions and Answers

Place of Performance and Staffing

1. The solicitation identifies the place of performance as "Varies." Can the Government confirm whether services may be performed remotely from within the United States, or whether contractor personnel must be physically located in Washington, D.C., Riyadh, Saudi Arabia, or another designated location? **Primary work will be computer based. Place of performance is not local to Saudi Arabia, there may be a requirement to be in Washington, D.C. at times.**

2. If onsite performance is required, which of the five task areas require physical presence, and what is the anticipated frequency and duration of onsite support? **Onsite performance is not required.**

3. Does the Government anticipate requiring full-time dedicated personnel, part-time resources, or staffing based on individual BPA calls and assigned deliverables? **These actions are episodic; the outcome will be for assigned deliverables.**

4. Will travel to Saudi Arabia be required? If so, will travel, lodging, and related expenses be reimbursed separately from the Firm-Fixed-Price deliverables? **No travel to Saudi Arabia is expected.**

Security and Personnel Requirements

5. Do any of the five task areas require personnel to possess an active Secret or Top Secret security clearance? **No, top secret clearance is not required.**

6. Is an active Facility Clearance (FCL) required for the prime contractor or any subcontractors at the time of quotation submission or award? **Not a classified contract.**

7. Are resumes, named key personnel, staffing matrices, or letters of commitment required with the initial BPA quotation, or will personnel qualifications be evaluated at the individual BPA call level? **Vendors will provide information that shows how the objectives will be met for BPA quotation.**

8. Are there any U.S. citizenship, nationality, installation-access, or other personnel eligibility restrictions applicable to contractor or subcontractor staff? **Personnel complaint within FAR Subpart 25.**

Teaming and Subcontracting

9. May a prime contractor propose a teaming arrangement with one or more subcontractors to satisfy the technical requirements across the five task areas? **There is not a restriction to teaming or subcontractors.**

10. May the prime contractor leverage the relevant past performance and specialized experience of proposed subcontractors to demonstrate technical capability and satisfy the Government's past performance evaluation criteria? **No.**

Contract Structure and Pricing

11. Does the Government anticipate awarding a single BPA or multiple BPAs under this solicitation? **There is an expectation of multiple BPAs.**

12. What is the estimated annual spending, anticipated total value, or maximum ceiling for the five-year BPA? **There is a rough order of magnitude of the simplified acquisition threshold, variability depending on market conditions.**

13. Is this a new requirement or a recompete? If it is a recompete, can the Government provide the incumbent contractor's name, previous contract number, and historical contract value? **This is a new requirement.**

14. The solicitation references a Pricing Schedule. Can the Government confirm whether offerors must submit fully burdened labor rates, fixed prices by task area, or pricing for specific deliverables? **The vendor is required to provide a pricing schedule based on the Statement of Objective. CLIN structure is/can be negotiated and/or best fit based on market conditions.**

15. Will individual BPA calls establish their own scope, deliverables, performance periods, and Firm-Fixed-Price amounts? **BPA calls will be established for specific episodic actions.**

Technical Requirements and Proposal Submission

16. Does the Government expect a single contractor to perform all five task areas, or may individual BPA calls be issued for selected task areas based on specific mission needs? **A single contractor can perform in all areas.**

17. For the GO/NO-GO technical evaluation, what specific documentation must offerors submit to demonstrate technical acceptability? **Ability to meet the Statement of Objective, Past Performance (recent and relevant), and Pricing.**

16. Is there a required technical proposal format, page limit, or prescribed response structure beyond the submission instructions provided in the RFQ? **The technical proposal shall describe how the vendor can meet the Statement of Objective. For example: providing an Executive Summary, Work Breakdown Structure and Schedule, Past Performance, and Pricing Schedule.**
