Evaluation Factors for Award

The following clauses were modified:

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation 2026-O0038) Feb 2026 hereby reads as follows:

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

FACTOR 1 - TECHNICAL & EXPERTISE: The contractor shall submit a quote describing the approach to be used to accomplish the award objectives. The technical quote shall be detailed, concise, and shall cover every aspect of how the contractor will meet the objectives of the Performance Work Statement (PWS) and who will be performing the work. The contractor shall describe their technical proficiency and unique qualifications for requirements described in the PWS. The contractor shall include past project experience (including what role or capacity the individual served on each project), as well as the dates (month and year) employed on each project in that capacity and the geographic size and stakeholder diversity of each project cited as experience.

FACTOR 2 - PAST PERFORMANCE: The contractor shall provide two references of projects completed within the past three years. Experience can be based on projects completed as a prime contractor or projects of qualified subcontractors that have the capabilities to perform this work. These references need to be equal to or similar in scope of this requirement. Contractor shall provide dates and pertinent information to demonstrate how they are comparable to this requirement in size and complexity. The contractor shall include points of contact, titles, telephone numbers, and email addresses for all references.

Factor 2 may also be evaluated based on information about contractor performance from existing performance documentation from any past contracts.

FACTOR 3 - PRICE: The contractor shall quote a price for each task on the price schedule. Failure to provide the price schedule with the submitted quote may result in the quote being rejected. The quote shall be inclusive of all costs that might be incurred by the contractors during the contract such as, but not limited to, labor, mileage, equipment, equipment rental fees, licenses, insurance, etc.

Factors 1 and 2, when combined, are significantly more important than Factor 3 - Price.

Adjectival Rating	**Description**
Outstanding	Quote demonstrates an exceptional approach and understanding of the requirements, contains at least one significant strength.
Acceptable	Quote demonstrates an adequate approach and understanding of the requirements.

Unacceptable	Quote does not meet requirements of the solicitation and contains one or more deficiencies.

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
