Solicitation Information

Award Type

It is anticipated that a Firm Fixed Price Requirement will be awarded as a result of this synopsis/solicitation.

The Government intends to make one award from this solicitation. Therefore, to be considered responsive, contractors must submit pricing for all items.

Evaluation and Basis for Award

The provision at FAR 52.212-2, Evaluation—Commercial Products and Commercial Services is not applicable to this solicitation. In lieu of this provision, quotes will be evaluated in accordance with FAR 12.203 based on the criteria listed below. Award will be made to the offeror representing the best value to the Government.

Technical approach:
A detailed explanation of the offeror's ability to perform the required services. A simple statement of capabilities will not suffice. Contractor shall prepare a work plan and progress schedule that demonstrates that work will be completed in section 3 of the PWS. Copy and paste from the Governments documents will receive an unacceptable rating. The lowest priced quote will be evaluated and will receive an overall rating of "acceptable" or "unacceptable." This will be based on the offeror's ability to provide a sound and compliant approach that meets all requirements and shows a thorough understanding of them. It is the contractor's responsibility to ensure their quotation clearly demonstrates their capability to meet these requirements.

Contractors' Quality Control Plan:

Haycamp Common Stand Exams
1284LM27Q0007

The contractors quality control plan needs to also include how they will manage their time, but will also manage and monitor employees performance to meet the standards outlined in the PWS.

Acceptable: The contractor shows a demonstrate ability to understand the requirement. The contractor clearly demonstrates how they are going to manage their time, monitor employees performance to meet the standards outline in the PWS.

Unacceptable: The contractor does not submit quality control plan. The contractor is unable to demonstrate the ability to understand the requirement. The contractor fails to demonstrate how they are going to manage their time, monitor employees performance, and endure that the work meets the standards outlined in the PWS.

Experience:
The Offeror completes the experience questionnaire provided by the Government. The Contractor shows detailed experience in performing similar type of work in size and scope for either the private, state, or for the Federal Government.

Acceptable: The Offeror is able demonstrate multiple detailed experiences that they or their subcontractors have performed similar type of work in both size and scope.

Unacceptable: The offeror is unable to demonstrate multiple detailed experiences in performing similar type of work in both size and scope.

Price:
The offeror shall provide pricing as requested in the Schedule of Items on the SF 1449 of this Request for Quote. Failure to propose pricing for all individual line items may result in a quotation being excluded from further consideration. The offeror's quotation will be evaluated in accordance with FAR 12.204, to determine if it is fair and reasonable.

Past Performance:
The Government may utilize any references provided by the Contractor, along with information available from past contracts/orders with the USDA and any information found using sources such as Federal Government sources or the Contractor Performance Assessment Reporting System (CPARS) to determine if the Contractor has acceptable or neutral Past Performance. Past Performance will be evaluated using the following rating system:

Acceptable: The contractor shows a demonstrated ability to meet contract requirements in prior or current contracts, including quality of work, timeliness, cost control, business relations, and adherence to contract terms.

Neutral: Offeror does not have a past performance record.

Unacceptable: The contractor has a documented history of failing to meet contract requirements, including poor quality, missed deadlines, cost overruns, lack of responsiveness, or unethical behavior.

Haycamp Common Stand Exams
1284LM27Q0007

Evaluation Method:
The Government will evaluate quotations based on the lowest price technically acceptable criteria. Only the lowest priced offer will be evaluated for Technical Acceptability. Should the lowest priced offer not receive an acceptable technical or past performance rating, the process will continue in order of lowest priced offer until the lowest price, technically acceptable offer with acceptable or neutral past performance is identified.

Award will not necessarily be made to the lowest-priced offeror. Tradeoffs will not be conducted.

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
(End of provision)

Service Contract Labor Standards

The Service Contract Labor Standards could apply to any contracts awarded through this solicitation. The Contracting Officer has determined the work will be performed around the following county in Colorado: Dolores County, Montezuma County, and San Miguel County.

Offerors must request additional wage determinations no later than two days before solicitation close. Offerors who intend to perform in a place or area of performance for which a wage determination has not been attached or requested may nevertheless submit proposals. However, a wage determination shall be incorporated in the resultant contract, and there shall be no adjustment to the contract price.
