Contractor Performance Assessment Reporting System DEC 2015

FAR 42.1502 directs all Federal agencies to collect past performance information on contracts. The Department of the Interior (DOI) has implemented the Contractor Performance Assessment Reporting System (CPARS) to comply with this regulation. One or more past performance evaluations will be conducted in order to record your contract performance as required by FAR 42.15.

2) The past performance evaluation process is a totally paperless process using CPARS. CPARS is a web-based system that allows for electronic processing of the performance evaluation report. Once the report is processed, it is available in the Past Performance Information Retrieval System (PPIRS) for Government use in evaluating past performance as part of a source selection action.

3) We request that you furnish the Contracting Officer (CO) with the name, position title, phone number, and email address for each person designated to have access to your firm's past performance evaluation(s) for the contract no later than 30 days after award. Each person granted access will have the ability to provide comments in the Contractor portion of the report and state whether or not the Contractor agrees with the evaluation, before returning the report to the Assessing Official (AO). Information in the report must be protected as source selection sensitive information not releasable to the public.

4) When your Contractor Representative(s) are registered in CPARS, they will receive an automatically generated email with detailed login instructions. Further details, systems requirements, and training information for CPARS is available at https://www.cpars.gov/.

5) Within 60 days after the end of a performance period, the AO will complete an interim or final past performance evaluation, and the report will be accessible at https://www.cpars.gov/.

a) Contractor Representatives may then provide comments in response to the evaluation or return the evaluation without comment.

b) Your comments should focus on objective facts in the AO's narrative and should a) provide your views on the causes and ramifications of the assessed performance.

c) All information provided should be reviewed for accuracy prior to submission.

d) If you elect not to provide comments, please acknowledge receipt of the evaluation by indicating "No comment" in the space provided, and then selecting “Accept the Ratings and Close the Evaluation”.

e) Your response is due within 60 calendar days after receipt of the CPAR. On day 15, the evaluation will become available in PPIRS-RC marked as “Pending” with or without comments and whether or not it has been closed.

f) If you do not sign and submit the CPAR within 60 days, it will automatically be returned to the Government and will be annotated: "The report was delivered/received by the contractor on (date). The contractor neither signed nor offered comment in response to this assessment."

The following guidelines apply concerning your use of the past performance evaluation:

Protect the evaluation as source selection information. After review, transmit the evaluation by completing and submitting the form through CPARS. If for some reason you are unable to view and/or submit the form through CPARS, contact the CO for instructions.

Strictly control access to the evaluation within your organization. Ensure the evaluation is never released to persons or entities outside of your control.

Prohibit the use of or reference to evaluation data for advertising, promotional material, pre-award surveys, responsibility determinations, production readiness reviews, or other similar purposes.

If you wish to discuss a past performance evaluation, you should request a meeting in writing to the CO no later than seven days following your receipt of the evaluation. The meeting will be held in person or via telephone or other means during your 60-day review period.

A copy of the completed past performance evaluation will be available in CPARS for your viewing and for Government use supporting source selection actions after it has been finalized.

(2) The name, address, telephone number of the Offeror;
(3) The Offeror's Unique Entity Identifier (UEI) and, if applicable, Electronic Funds Transfer (EFT) indicator;
(4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;
(5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and

(6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) *Period for acceptance of offers*. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) *Late submissions, modifications, revisions, and withdrawals of offers*.

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.
(2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.
(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) *Debriefings*. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.
(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

RFO 52.212-2 Evaluation - Commercial Products and Commercial Services (Mar 2026)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, evaluation will be based on Best Value to the Government IAW RFO 12.203 in accordance with all the requirements and specifications.

Basis for Award- Highest Technically Rated Offeror with a Reasonable Price (HTRFP): The Government will award a contract resulting from this solicitation to the responsible quoter whose quote conforms to all solicitation requirements and receives the highest combined rating across the non-price technical factors, provided the offered price is evaluated as fair, reasonable, and balanced. Trade-offs between price and non-price factors will not be conducted; price will not be scored or ranked against other quoters but will serve as a pass/fail threshold for award eligibility.

Non-Price Evaluation: The Government will evaluate all responsive quotes against the non-price factors and assign a combined technical rating. Ranking: Quotes will be ranked from highest to lowest technically rated based on the combined non-price evaluation. Non-price evaluation factors are listed in relative order of importance:

- Factor 1: Past Performance and Prior Experience
- Factor 2: Technical Approach/Capabilities
- Factor 3: Staffing

Factor 1: Past Performance and Prior Experience
The quotation must demonstrate relevant experience providing janitorial services for vault toilet facilities for Federal, State, or commercial entities within the past three years. Experience must be similar in size, scope, and complexity. Quoters must provide current or past contract numbers, Government/client Points of Contact (POCs), and PWS descriptions indicating contract value, size, and performance periods. Note: Standard urban building maintenance and residential cleaning services will NOT be considered relevant. Quoters must demonstrate experience performing janitorial services in remote, arid/desert environments under challenging environmental conditions. Highlight demonstrated knowledge and compliance experience with Bureau of Land Management (BLM) and applicable Federal Environmental Regulations.

Factor 2: Technical Approach/Capabilities
The quotation should include a capability statement showing the offeror’s ability to meet all requirements outlined in the Performance Work Statement. It should demonstrate the contractor’s ability to work independently in harsh, hot desert (100 + degrees) wildlands and remote backcountry environments, far from the grid. Please provide a list of current contractor-owned equipment capable of handling the tasks described in the PWS, including vehicles suitable for travelling on unmaintained dirt surfaces requiring four-wheel drive access. Submissions that show less than the PWS standards will not be considered. Include any accessories such as self-contained powered equipment that can operate in remote areas without provided electricity or water at the service sites. Please describe contractor-provided safety measures, such as a safety plan and equipment to maintain safety and viability in these challenging conditions.

Factor 3: Staffing
Quoters must submit a staffing and retention plan demonstrating how they will recruit, deploy, and retain qualified personnel in a high-turnover industry to ensure continuous, uninterrupted janitorial services across all sites. Procedures to train employees using GPS coordinates to locate restrooms in remote locations.

Factor 4: Price Evaluation: The Government will evaluate the highest technically rated quote for fairness, reasonableness, and balanced pricing. The quote will be evaluated against the reasonableness of pricing schedule (both pay rates and methods of calculating payment and work progress). The quoter will provide a lump sum price in the solicitation line items and complete a breakout. A breakdown of the offer will be provided with details of pay rates, travel/lodging, methods of calculating payment and work progress. The price schedule (Attachment 2) can be used as a tool to outline the lump sum for each priority.

Award Determination: If the highest technically rated quote's price is determined fair and reasonable, the Government will make an award to that quoter without evaluating the prices of lower-ranked quotes. If the price is not fair and reasonable, the Government will evaluate the price of the next highest technically rated quote, continuing this process until an award can be made to the highest technically rated quoter with a fair and reasonable price. In the event of a tie, the Contracting Officer has the discretion to determine how the tie will be resolved.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options shall not oblige the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified
expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
